* *Erratum.*—Through a clerical error the above quantities and values of Dynamite imported during 1896 were accidentally omitted when making up the Returns of Imports for 1896. The amount of £45,299, representing the value of imported dynamite in 1896, will therefore be included in the Total Value of Imports of 1897.

* *Erratum.*—Through a clerical error the amount of £42,000 was accidentally omitted from the value of the Imports of "Horned Cattle (for slaughter)" from South Australia, which, therefore, should read £57,720 instead of £15,720, and the total value of imported "Horned Cattle (for slaughter)" should read £72,950 instead of £30,920. The difference, £42,000, which was not included in the final amount of Imports for the colony for 1896, will be accounted for in the Import Return for 1897.

† A Refund of Duty of £307 10s. was allowed during the year on 205 head of Horned Cattle of the value of £4,100 claimed to have been imported for breeding purposes.

* To the figures here shown "Dynamite" to the value of £45,299, and "Horned Cattle (for Slaughter)" to that of £42,000—making a total of £87,299, which were accidentally omitted (*vide* footnotes on pages 17 and 18)—should be added to give the true total value of Imports for the year, which would thus be raised to £6,580,856. However, the original total of Imports –£6,493,557—having been widely published, it has been thought best to allow the figures to stand as they are, and to include the omitted values in the total value of Imports for 1897.

* In cases where blanks occur, the article was probably classified under some general heading, and not particularly specified.

† Through a clerical error, the value of dynamite imported during 1896 (£45,299) was accidentally omitted when making up the Return of Imports for 1896. The amount will therefore be accounted for in the total amount of Imports for 1897. (*See* footnote on page 17.)

‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of Imports for 1896, and will therefore be accounted for in 1897 Returns. (*See* footnote marked * Erratum, on page 18.)

§ *See* footnote marked † on page 18.

* Timber is not to remain under load unless demurrage is paid for detention. If it be necessary to discharge timber at shore end of Bunbury Jetty to wait ship's arrival, it should be discharged by owners; and when required for shipment, owners must do their own loading and discharging. The Department will do the haulage from shore end to ship's side, and charge wharfage dues at 1s. per ton. Should timber be delayed on the Department's ground at shore end of jetty longer than sixty (60) days, a charge of 2d. per ton per week to be made for each week or part thereof following the sixty (60) days.

* The apparent falling off in 1896, as regards the heading "Orchards and Gardens," is explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," and "Miscellaneous Crops" were in previous years all included under the one heading.

† *It must also be pointed out that the acreages under "Vines" and "Fruit Trees" in 1896 have been compiled on the basis of the actual number of vines and fruit trees planted, according to a standard supplied by the Bureau of Agriculture, which allows 600 vines and 100 fruit trees to the acre; a comparison between the figures of 1896 and those of previous years is, therefore, valueless.*

"The Total Area under Crop" in 1896 was 111,738¼ acres, and if there be added to this 4,043½ acres under *permanent artificially sown grasses*, 24,945¼ acres *cleared and prepared for immediate use*, and 22,561¼ acres of land in *fallow*, the area of *arable land* at the end of the season will show a total of 163,288¼ acres.

* These are the Official Returns of Gold, exported from the Colony, which has been registered as required by law; no doubt, a considerable quantity has been exported without registration.

† Including West Pilbarra.

‡ The gold shown as alluvial for Coolgardie is an unspecified balance, probably due to several Fields of the Coolgardie group.

§ It will be seen that the gold exported from the Eastern Goldfields does not, in the above Table, agree with the Returns of Gold yielded from ore milled and alluvial and dollied gold, the reason for this being that previous to April 30th, 1896, the North Coolgardie, North-East Coolgardie, and East Coolgardie Gold Returns were included in the Coolgardie Return of Gold exported. It is evident also that some gold was declared at Coolgardie which was obtained on other Fields.

* The abolition of the Grant to Assisted Schools under the Act of 1895 was not extended to the Orphanages. A Grant of £2 5s. per head for *bonâ fide* orphans is allowed to the five Orphanages shown in the above table, provided that the Institutions receiving the Grant follow the same curriculum as the Government Schools, and be subjected to the same examination and inspection.

‡ As the Swan Boys' Orphanage and Swan Native Mission were worked only half-time, the Grant for these Institutions was calculated on a basis of £1 2s. 6d. per head.

† As the Regulations were delayed until the late months of the year 1896, the prescribed attendance returns could not be furnished in this instance.
